

Production and Operation Management of Textile Industry– TXL 782

Minor -1

Discipline: B.Tech./M.Tech.

Time: 1 hours

Date: 05.02.2018

Max. Marks: 20

1. How would operations strategy for a service industry be different, if any, from that for a manufacturing industry? Cite an example and explain.
2. What may be your prognosis for the future of the production and operation management discipline in general? Discuss.
3. Is the “when” question more important than “how much” in material management? If so. Why?
4. What are the basic assumption underlying the classical EOQ model? Mention a few situations where these assumptions may not be valid. In such situations, check the validity of the basic concepts behind the EOQ model.
5. India needs to take cognizance global trade patterns due to various Free Trade Agreements. Justify your response.
